Summary

Goal-driven Computer Science graduate with hands-on experience in backend development. Skilled in Python, Django, and REST APIs, with a focus on building scalable, user-centric applications. Strong problem-solving ability and passion for clean, maintainable code.

Core Skills

- Python (OOP) • RESTful APIs • CRUD Operations • Authentication & Authorization • Problem Solving
- MySQL • Django/FastAPI • Data Structures & Algorithms (Python)

Projects

Smart Hospital Management System (SHMS)

Technologies: Python, Django/FastAPI, HTML, CSS, JavaScript, MySQL

Developed a role-based hospital management system with modules for patients, doctors, appointments, billing. Built secure REST APIs and designed a responsive UI to ensure efficient data handling and user experience.

School Management System (Mini School)

Technologies: HTML, CSS, JavaScript, Python

Developed a web-based system to manage student and teacher records.

Implemented CRUD operations and form validation to ensure accurate data entry and management.

ORM-Based Management System

Technologies: Python, Django ORM / SQLAlchemy

Designed and implemented database models using ORM concepts.

Managed relationships and CRUD operations to maintain data consistency and scalability.

Technical Skills

- Languages: Python, JavaScript
- Frontend: HTML5, CSS3, React (Basics)
- Backend: Django, FastAPI
- Database: MySQL, SQLite
- Concepts: OOP, REST APIs, CRUD, DSA (Python)

Education

Bachelor of Science in Computer Science (B.Sc. CS)

Balkrishna Sharma Navin P.G College, Shajapur, Vikram University

Vikram University | 2023 | CGPA: 7.1

Certificate

Python Full Stack Development Program

CODE BETTER
